

Olive oil from a sustainable supply chain

◆ SOURCING & ORIGIN OF OUR OLIVES

OLVEA's olive oil comes from a **sustainable supply chain** and is produced in the **respect of our values**. The olives are grown according to **good agricultural practices** (integrated production) and are **harvested by hand** by producers members of an organised cooperative and with whom are developed **long-term relations and projects**.

This Spanish supply chain is very different from the classic intensive olive-growing in the region: it **integrates production means that are respectful** of the **product**, the **planet** and the **people** (animal traction, manual harvesting, traps for harmful insects).

IMPACTS (2018)

◆ PEOPLE - HUMAN RIGHTS AND WORKPLACE

Number of producers

26

INVOLVED IN THE INTEGRATED PRODUCTION OF CONVENTIONAL OLIVES

Number of producers trained

100%

TO GOOD AGRICULTURAL PRACTICES

Social actions

Implementation of social projects in partnership with 3 associations to **boost social life and local culture** (theatre and flamenco lessons)

◆ PRODUCT - ECONOMIC DEVELOPMENT

Income generation

Local economic development with the **creation of direct and indirect jobs**

1 000

FAMILIES LIVE THANKS TO THE SUPPLY CHAIN'S ACTIVITIES

Pricing policy - Payment made directly to the producers

4%

HIGHER THAN THE MARKET (PREMIUM)

◆ PLANET - NATURAL RESOURCES STEWARDSHIP

Green plant

Production of electricity from **photovoltaic panels**

15%

OF THE ELECTRICAL NEEDS COVERED BY PHOTOVOLTAIC PANELS

0% waste: use of **biomass** (olive stones) as a source of fuel for boilers and **by-product valorization** (production of compost)

2 000

TONS OF COMPOST PRODUCED

Area

Area required for the **production of olives**

250

HECTARES

Promotion of good practices for the conservation of biodiversity

Implementation of a project in partnership with **WWF** (World Wildlife Fund): **identification and census of the different fauna and flora species** present in the olive harvest area.
