

Oils from sources you can trust

OLVEA recognized for its sustainability excellence with EcoVadis Gold & Platinum medals and CDP A- score

OLVEA is proud to announce that its sustainability efforts have once again been **recognized with top distinctions**. The company and its business services have been awarded **Gold & Platinum medals by EcoVadis and an A- score from CDP**, reaffirming its commitment to environmental and social responsibility.

Industry-leading sustainability ratings

As a global reference in sustainability performance assessments, **EcoVadis** evaluates companies on **environmental, social, and ethical performance**. The Gold and Platinum medals place **OLVEA among the top-ranked organizations worldwide** for its responsible business practices.

Meanwhile, **CDP** (Carbon Disclosure Project), a leading organization measuring **corporate climate strategies and carbon footprint management**, has awarded OLVEA an A- score for its climate action. This recognition reflects **OLVEA's strong commitment to transparency and emissions reduction**.

Verified carbon footprint

As part of its OLVEAct Now CSR strategy, OLVEA has made **carbon footprint reduction** a priority. This year, the company took a major step forward by **independently verifying its emissions**, reinforcing its commitment to **transparency and effective climate action**. This initiative allowed OLVEA to reach its goal of **obtaining a top CDP A- score**, while reinforcing its ongoing efforts to reduce environmental impact.

A collective effort towards a sustainable future

Committed to continuous progress, OLVEA upholds **climate-conscious business practices** by actively **reducing emissions**, optimizing **resource use**, and fostering **sustainable innovations**. Through responsible sourcing, transparent partnerships, and circular economy initiatives, OLVEA ensures that sustainability remains embedded in every aspect of its operations, driving **long-term positive change for both people and the planet**.

"At OLVEA, sustainability is at the core of our operations. These recognitions from EcoVadis and CDP reflect the dedication of our teams and partners to building a more responsible value chain by integrating responsible sourcing, reducing our carbon footprint, and continuously implementing sustainable solutions to create a positive impact on the environment." – Christophe Godard, CSR Director, OLVEA

About OLVEA

Founded in **1929**, OLVEA is a leading producer and supplier of **vegetable and omega-3 fish oils for the cosmetics and food industries**. Pioneer in sustainable sourcing, the company integrates responsible supply chains, traceability, and continuous innovation to ensure a positive environmental and social impact. By **combining expertise with a deep commitment to sustainability**, OLVEA delivers high-quality ingredients while actively contributing to a more responsible future.
